

## Parent – School Contract

### Introduction:

A constructive relationship between the school and families is key to ensuring that the students' well-being is at the core of an effective educational experience. It is beneficial for both parties, the schools and the families, if these constructive relationships are based on agreed terms and conditions set out clearly in a contract form.

In addition to this contract, schools should have effective procedures to address and mitigate parental concerns and complaints, while at the same time parents should also be recognized and used as a valuable resource in the educational experience of their children.

To ensure that all parties in this relationship are aware of their duties and responsibilities, families are required to read this document carefully and to ratify it only after all queries have been addressed by the school.

The terms and conditions stipulated in this contract are a reference for dispute resolution. KHDA will uphold the agreement stipulated in this contract when a party refers a matter to KHDA for deliberation and endorsement.
